

# Seeds of Hope Project(NGOs/NPOs)

**Seeds of Hope Project goal: Through strong collaborations, efficient collection systems, and community distribution points, we are turning potential waste into nutritious meals, restoring dignity and hope.**

**Every day, tons of edible food goes to waste while many families go to bed hungry. Our project is closing this gap by redirecting surplus food from retailers, farms, and partners to vulnerable communities in need.**

**Together, we can build a sustainable solution by reducing waste, fighting hunger, and strengthening communities.**

**IF YOU ARE A FARMER, RETAILER, FOOD PRODUCER, OR COMMUNITY ORGANISATION, JOIN US IN CREATING A HUNGER-FREE FUTURE.**
